

CEO Bjorn Bijster from Glimm Screens BV has established an exclusive alliance with Marvel Digital LTD

Marvel Digital is a company who is producing and developing 3D TV without glasses.

They started a new production line in Sheng Zhen China and they asked Glimm Screens to install and support them with the holographic solutions like Pepper ghost.

Mr Lee the President of Marvel Digital (and Minister of China) and technical director Max Chow successfully followed a two days training of Glimm Screens at the Glimm academy in Holland. CEO Bjorn Bijster has contracted them for an exclusive partnership for China and Hong Kong.

Enhancing Life
through Innovation

www.marveldigital.com

Bjorn Bijster has visited Marvel Digital to support them with an installation set up in Hong Kong for the opening of the first Holographic show room in China. Glimm Screens BV will display their holographic products and will make some further developments on Holographic projections like holographic pyramids. The showroom is ready and people can see a real size Hologram of 4m x 4m in China and Hong Kong now.

In the meantime Marvel Digital will introduce also for Glimm the first 3D TV without glasses. This will be available for Glimm in 2015 and they are showing it on CES USA already. Marvel has installed 5-6 holographic set ups now with the projection foil from Glimm Screens, which is available in 2m, 3m, 4m, 6m width and 50 meter length. This will be produced by Glimm.

The partner of Glimm Screens and Marvel are going to install the first Holographic Pyramid in Italy on the EXPO ITALY 2015. In the Egypt Hall. The pyramid will be 5m x 5m big and will be the same we have done for the Historical Museum In Bologna in 2014 In Italy.
